PCI Internal Modem with Motorola chipset. 2 RJ-11 ports. 56Kbps data transfer rate. Supports data communications and includes FAX function.

**appUSB150NANO****Wireless-N Nano USB Adapter**

Wireless USB device designed for networks of up to 150Mbps. It allows any user to connect a PC or laptop to a network of 300 Mbps, 150 Mbps, 54Mbps or 11Mbps wireless. With WPS button that speeds up a more secure wireless connection. Compatible with 802.11n, 802.11g and 802.11b. Support multiple existing security protocols: WEP/ WPA/ WPA-PSK/ WPA2-PSK/ TKIP/ AES. Its compact and small design provide great mobility adaptable to any situation.

**appUSB150DAV2****Wireless Lite-N USB Adapter 4dBi Detachable Antenna**

Designed to provide high speed and incomparable wireless performance for your computer. You can get a better internet experience, such as downloads, games, streaming video, etc. It uses more advanced wireless network technology: 802.11n. When 802.11n devices are interconnected, MIMO technology uses twice the radio wavelength band to increase three times the speed of transmission. Compatible with satellital receivers and android.

### appRP01V2

### appRP02

## 300/150 Mbps Wireless Lite Wi-Fi N Extender

Repeater for WiFi networks, for those seeking a definitive solution to extend the range of your wireless network. Connected to an electrical outlet repeats the WiFi signal to distant areas such as patios, terraces or farthest rooms. For the most demanding users it can also be used as an access point or in client mode. With the repeater any wireless network can be extended almost immediately, all you need is an available electrical outlet in the range of the router. One of its most outstanding features is its speed at 300/150Mbps with quick and easy setup in minutes.

### appPLC5

## Powerline Communication Kit 500Mbps

APPPLC5 APPROX Kit consists of two PowerLine adapters (PLC) Ethernet AV used to distribute an Ethernet network in your house using the existing electrical wiring. HomePlug AV technology allows you to maintain data transfer rates at high speed up to 500 Mbps at a distance of 300 meters The APPPLC5 is easy to install and setup, just connect, synchronize and go!

### appIP01WV4

## Wireless IP Camera

Wireless IP camera that combines high quality digital video, network connectivity and a powerful Web server, to provide clear monitoring through your PC via your local network or Internet. Ideal for monitoring special places in your home or office. You can also control and manage the camera and images by simply accessing the Web. Software and DDNS address included.
